Why Don’t Clients See Any Available Appointment Times?

Premium Listings – Online Booking · https://haircutnow.com/docs/why-dont-clients-see-any-available-appointment-times/

If your booking section appears but clients cannot select a time, start by checking your availability.

Common reasons include:

- No working hours have been added.
- The selected day is outside your normal schedule.
- A break blocks the time.
- You marked the day off.
- Existing appointments already occupy the available times.
- Calendar conflicts are blocking availability.
- Your service duration is longer than the remaining open period.

For example, a 45-minute service cannot be booked into a 30-minute opening.

Review your schedule, appointments, breaks, time off, and connected calendar.

Then test your public listing again as a client.

What Happens to My Appointments If I Downgrade My Listing?

Downgrading an individual listing to Free removes public online booking from that listing. It does not erase your account or appointment history.

How to Set Your Appointment Availability

Your saved booking schedule determines when clients can reserve appointments.

How to Set Up Appointments on Your Haircut Now Listing

Before clients can book you, you should complete your appointment setup. Step 1: Sign in Sign in to the account that owns your claimed Premium individual listing and open Booking Manager or My Appointments. Step 2: Open Appointments Use the Appointments, Clients, Services, and Availability navigation in your booking dashboard. Step 3: Add your services [...]
