How to Complete Your Biz Profile and Manage Photos

Haircut Now Biz App · https://haircutnow.com/docs/how-to-complete-your-biz-profile-and-manage-photos/

Open **My Business** to manage your barber profile and return to unfinished setup.

App screens depend on the version currently available for your device. If an option is missing, check for an available update or use the linked website.

Start from Free Basic Card setup

From account options, choose **Set up my card → Free Basic → Create or claim a barber listing**. In native Basic setup, choose **Set up my barber profile** to open **Set Up Haircut Now Biz**. Use the existing-listing option if you already own a listing. Keep the same account throughout.

Complete profile setup

1. Open **Profile setup** or **Continue setup**.
2. Save your workplace address and experience.
3. Add your profile photo.
4. Add haircut gallery photos, or choose **Add gallery photos later** when offered.
5. Preview your saved information.
6. Choose **Finish setup** when the required steps are complete.

Your progress is saved as you go. Skipping the gallery for now does not invent a photo requirement.

Update your profile later

My Business provides options such as:

- **Change profile photo**

- **Manage haircut gallery**
- **Workplace and experience**
- **Profile details**

Use a clear photo of yourself and accurate workplace information. A profile photo and a gallery of haircut examples serve different purposes.

Confirm a photo saved

Wait for the save or upload result. A selected image or preview alone is not confirmation that the change was saved. If an upload fails, retry when connected and reopen the screen to check the saved result.

Profile versus Marketplace listing

The setup preview shows your Biz profile. **Preview Marketplace Listing** opens the public listing when your account has a verified connection.

Check that public page after updating listing content. Completing Biz setup does not by itself prove Marketplace ownership or complete every listing field.

Scheduled availability

Weekly hours and time off belong to the appointment calendar. They are not a same-day availability schedule in the Biz profile checklist.
