How to Upgrade or Manage Your Barber Card Pro Subscription

Digital Barber Card · https://haircutnow.com/docs/how-to-upgrade-or-manage-your-barber-card-pro-subscription/

Manage the card subscription from your Barber Card manager.

Pro is **$4.99/month** or **$49.90/year**. Review the selected interval and checkout total before subscribing.

Upgrade an existing card

1. Sign in to the account that owns the card.
2. Review **Upgrade to Barber Card Pro**.
3. Choose the monthly or yearly option.
4. Review checkout and complete payment.
5. Return to the manager and confirm the **Pro** badge.

Your existing permanent card link and QR destination remain the same.

Start Pro without a listing

At the top of Card setup, choose **Pro**: **$4.99/month** or **$49.90/year**. Enter the public username you want, choose a billing interval, and complete checkout. If the username is unavailable, choose another. Return to finish your profile and confirm the Card is active before sharing. No Marketplace listing is required.

Manage an existing subscription

Choose **Manage subscription** to open the billing portal. Use the available portal controls to manage payment information or cancellation, and review the effective date shown there.

The manager shows renewal or access-through information when available. A payment problem may appear as **Payment needs attention**.

If Pro does not appear after checkout

Allow the return page to finish checking your subscription, then reload the manager. Confirm that you are in the account used for checkout. Contact support with the account and receipt details if access remains incorrect; do not start a second purchase to resolve it.
